

London's NHS is here for your

BREAST CANCER SCREENING

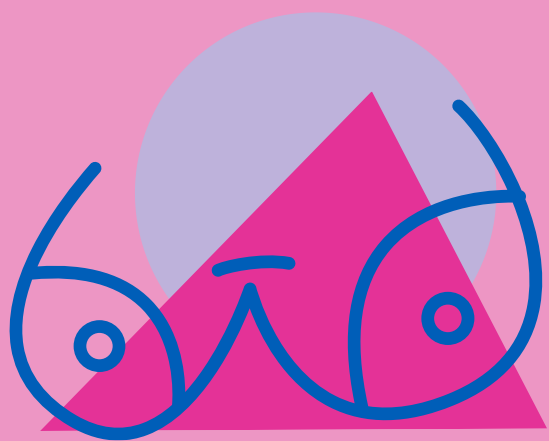

If invited for breast screening, go

Breast screening units have put much in place to reduce the risk of Covid-19 and keep you safe.

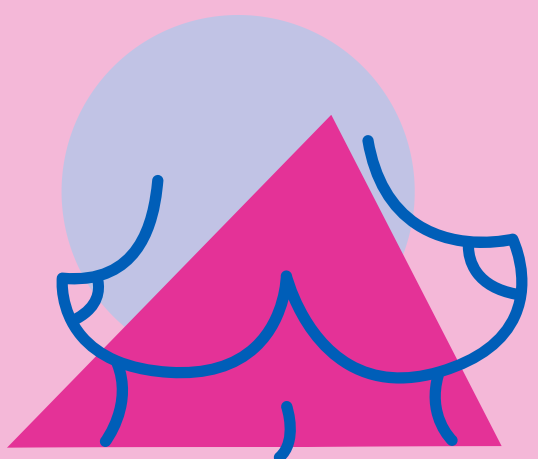

We are making changes so you can attend screening when it suits you

Female staff will take a breast X-ray and the whole appointment takes no more than 30 minutes.

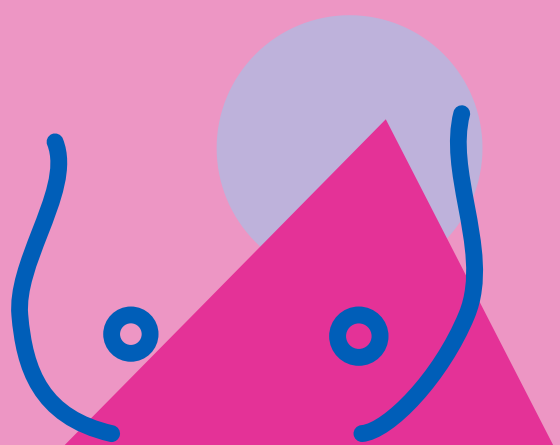

Catching breast cancer early can save lives

Early detection increases the chances of recovery and reduces the need for aggressive treatments like chemotherapy.

Breast cancer is the most common cancer in women

About 1 in 8 women are diagnosed with breast cancer during their lifetime.

1/100 screened will have breast cancer

For every 100 women screened, 1 will have breast cancer.
