

## Parking FAQ's

Information is also available on the Trust website at

<https://www.kch.nhs.uk/patientsvisitors/getting-to-kings/parking>

### Number of car parks

There are three car parks:

1. King's College Hospital, Denmark Hill (DH)
2. Princess Royal University Hospital (PRUH)
3. Orpington Hospital (ORP)

### Parking Income

Information is held in financial years.

The car parks at King's College Hospital NHS Foundation Trust sites do not make a profit. All parking money is reinvested into maintaining and improving parking, security and access or to improve services and the environment for patients.

We believe public money should be spent on treating patients. If the Trust did not charge for parking, money intended for patient care would have to be used to provide and maintain parking facilities.

Additionally, we encourage patients and visitors where possible to use public transport, cycle, or to be dropped off at our hospitals.

The below table shows cash income from 'pay + display' parking at PRUH and Orpington and 'pay-on-foot' car park at Denmark Hill.

Income from staff parking permits is not included and details on the cost of these are detailed on the subsequent pages.

### Number of Car Parking Spaces for blue badge holders

We provide 58 clearly marked disabled parking spaces across all sites (see table below for numbers at each site). These are free to those who are registered disabled and have a Blue Badge. These spaces are located around the various entrances to the hospital sites for easy access. If these spaces are not available, disabled drivers can use the main car park, where the usual parking fee is payable. The roads within the hospital campus are private and they do not constitute on-street parking for the purposes of parking under the Blue Badge Scheme and are subject to our conditions relating to parking irrespective of whether a driver is disabled or not.
