

Thank you for your interest, this document is no longer available. If you are a student nurse looking for an elective placement, please contact <u>kch-tr.electiveplacementskch@nhs.net</u>. We are happy to discuss what we have on offer and when we are able to support such requests, so please reach out to us, including in your email:

Your name

Your course of study (including branch of nursing)

Your university

The dates for which you are requesting an elective placement

A list of areas or specialisms you are interested in experiencing.

Please be aware that elective placements can only be supported at times where we have capacity to do so; King's College Hospital NHS Foundation Trust is a proud provider of pre-registration training to several universities throughout London, so please be mindful that at certain times of the year (e.g. beginning of June to end of July), we may not be able to support elective placements.

All offers of elective placement will be conditional on successful OH/HR checks for honorary contracting purposes.

Kind regards,

Pre-Registration Nursing Practice Development Team King's College Hospital NHS Foundation Trust <u>kch-tr.electiveplacementskch@nhs.net</u> <u>www.kch.nhs.uk</u>
